Sunday school 10 a.m.

Morning worship 11 a.m.

Evening service 7:30 p.m.

Midweek meeting:

Wednesday 7:30 p.m.

A cordial welcome awaits you.

I KNOW SOMETHING GOOD ABOUT YOU

Wouldn't this old world be better

If the folks we meet would say,

I know something good about you,

And then treat us just that way!

Wouldn't it be fine and dandy

If each handclasp warm and true

Carried with it this assurance,

I know something good about you!

Wouldn't things be more pleasant

If the good that's in us all

Were the only thing about us

That folks bothered to recall!

Wouldn't life be lots more happy

If we'd praise the good we see!

For there's a lot of goodness

In the worst of you and me.

Wouldn't it be nice to practice

This fine way of thinking, too?

You know something good about me,

I know something good about you!

—Author Unknown.

HISTORIC PAPER SHORTAGE

Those who think they have paper

difficulties in these days should have

lived in Macon during the war between

the States. Searchers of old

records have found that, during the

blockade of southern ports, paper in

Macon sold for as high as \$115 a

ream—when there was any paper to

sell! —Master Printing Association,

Newark.

Growing old is nothing more than

a bad habit a busy person has no

time to form.

NOMINATION DAY MONDAY

IN MUNICIPAL ELECTIONS

Monday next is nomination day for municipal elections. Nominations are being called for Mayor, two councillors for a 3-year term, one councillor for two years and one for one year, as well as three school trustees.

The miners union are nominating Enoch Williams for mayor and William Gray as councillor, whose terms on council terminate this year, as well as W. Jallip, R. L. Williams and Glyn Rees for council, and A. Bosetti, Mrs. V. Krkosky and Jas. Lloyd for re-election to the school board.

W. Gray will seek re-election for one of the 3-year terms; W. Jallip three years, R. L. Williams two years and Glyn Rees one year, all as councillors. The latter three are newcomers in municipal affairs.

The annual ratepayers' meeting is scheduled for tonight at the main school when the council and school board will give an account of their stewardship. Elsewhere in this issue appears a synopsis of the town and school district financial statements.

Whether further nominations will be made we are unable to learn at the time of going to press, except that it is expected Romano Peresini will contest the mayoralty.

BLAIRMORE PUBLIC LIBRARY

If weather conditions permit the opening of the Blairmore Public Library on Saturday, a number of new books for adult readers will be put on the shelves, a complete list of which will appear in The Graphic next week.

TIME, TIDE AND MARKETS

Everyone knows we are living in boom times, an abnormality far beyond such a peaceful thing as prosperity. Most people seem to have money, no one seems to go broke. There is no measuring it; the old yardsticks won't do. Men and their money behave queerly, and very humanly, which is to say contrary to predictions and graphs. Almost all the curves in business are up and there is a powerful demand for practically everything.

The average man sees what is happening around him. He feels he is living in a fantasy of luxuries and shortages while somewhere over his shoulder hangs the disturbing menace of reported slumps, international upheaval and world confusion. It was assumed that there would be a re-conversion depression after the war while industry geared for peacetime production. This turned out to be a myth; instead the big boom was on.

The big boom is still on, but let's recognize it for what it is. The boom needn't be the big bubble which bursts. The important consideration of these times is to adjust our affairs to peacetime prosperity without being panicked into a violent breakdown. This can be accomplished by being ready for a natural recession when it comes and by regarding it as a normal phase of business, not as the writing on the wall.

We may not understand the developments going on in the world today, but we can apply the basic principles of sensible living to our own affairs. Nature reads the signs that winter is coming and prepares accordingly, and so do you when you put up your storm windows and clean out the furnace. Everyone of us would do well at this time to stop and decide how much of our business has been earned by the labor and service we have devoted to it and how much has been handed to us by the fortunes of the post-war period.

Time, tide and markets wait for no man. Let us keep in step with them. —J.L.M.

C. N. F. SKI TOURNAMENT

SUNDAY, FEBRUARY 2, 1947

Like so many other events of its kind, the CNF annual ski tournament has not been run during the war years. This season finds skiers back from the service, and many enthusiastic beginners again on the ski run which is in perfect condition. The club is putting forth every effort to bring to skiers and the general public an exciting day of spills and thrills.

Mr. Ted Paris, well-known Banff skier, is expected as an added attraction. He will set the courses and give demonstration runs.

The events will be: Juvenile (under 14), Slalom, and Downhill, closed; Men's Junior (under 18), Slalom, and Downhill, open and closed; Men's Senior Slalom and Downhill, open and closed; Ladies' Junior Slalom and Downhill, open and closed; Only club members may enter closed events.

Prizes and trophies have been donated by enthusiastic supporters of the race and are on display at the Blairmore Hardware Company. They will be awarded Sunday evening.

The program is expected to get under way about ten thirty. This arrangement is especially for out of town members, who have a long way to travel.

The road to the foot of the run has been cleared. A running account of each event will be given over a public address system.

All entries must be in by midnight Saturday, February 1st. The forms may be secured from Miss Muriel McLeod, Blairmore, or Mr. Harry Lord, Blairmore, or Mr. S. J. Ondrus, Coleman.

For a thoroughly enjoyable day plan to attend, either as a competitor, or spectator.

Happy Landings

There are only three steps leading to the place where perfect harmony lies, yet they are hard to climb. The first is to think kindly of one's neighbor. The second is to speak kindly to him. The third is to act kindly toward him. The reason they are hard to climb is that we are so badly engaged in thinking well of ourselves, speaking well of ourselves, and acting in a manner which we think will do ourselves the most good.

LATEST RESULTS IN

DISTRICT BONSPIEL

The fours were reached in the Hill Cole and Studebaker events on Sunday, as good progress was made from the 16's. It is now possible to make the draw for the consolation event, the Pontiac competition, since those reaching the fours in either the Cole or Studebaker are no longer eligible to enter the consolation.

McKay and Rinaldi risks which had been undefeated up until Sunday were unceremoniously dumped into the consolation event. McKay went out one, two, while Rinaldi was called upon to play four games, the first two he won, but the second two found him taking quite a shellacking. Nunn, Excel also received set-backs but hung on grimly to enter the fours in at least one competition to share in the jewelry. Only George Jenks and Bruning remain undefeated, both reaching the furs in two competitions.

Following are Sunday's results:

STUDEBAKER:

16's—Bruning beat Victor; J.

Jenkins beat Nunn; Beal beat Excel; Rinaldi beat McKay.

8's—G. Jenkins beat Meier; Hol-

stead beat Rinaldi; J. Jenkins beat Beal; Bruning beat Duncan.

BILL COLE:

16's—Excel beat Gillespie; Dan-

cey beat McKay; Ford beat Em-

merson; Nunn beat Rymakers;

G. Jenkins beat Dow; Rinaldi beat Duncan.

8's—Bruning beat Antle; G.

Jenkins beat Rinaldi; Nunn beat Ford; Excel beat Dancy.

The Pontiac competition will get

under way next Sunday and it is

expected the two major events will

be finished.

The only sure thing about luck is

that it will change.

People who squawk about their income tax may be divided into two classes. They are: men and women.

Here's a hint to young wives: If your husband refuses to wipe the dishes, claiming that it is not a man's job, politely reach for the Bible and read 2 Kings 21:13. "And I will wipe Jerusalem as a man wipes a dish, wiping it and turning it upside down." Further comment will not be necessary.

Youth in Agriculture

Activities of rural boys' and girls' clubs in Canada in which there are nearly 40,000 members, include a wide variety of practical projects in livestock, field crops, horticulture and home economics. Competition, marked by good sportsmanship, is an important part of the club program. Local, district and provincial competitions culminate in the annual program of national project contests, and educational features, sponsored by the Canadian Council on Boys' and Girls' Club Work. Forty-two teams of two members each, participated in the national club event for 1946, held in conjunction with the Royal Winter Fair. The picture shows Miss Frances Legg, Millmont, Alta., observing a good specimen of the Aberdeen Angus breed at the Royal Winter Fair.

CANADIAN CITIZENSHIP

ACT—1947

Macleod, Alberta,

January 13th, 1947.

Fred Antrobus, Esq.,

Police Magistrate,

Coleman, Alberta.

Dear Sir,

Re: Canadian Citizenship Act 1947

In future when any inquiries are made in regard to the procedure to be taken under the new Canadian Citizenship Act will you kindly advise those inquiring that I will be in Blairmore on the days set out for court sitting. On such days I will take the Declaration of Intention or any party desiring to become a citizen providing such party has with him or her two photos 2 1/2" x 3 1/4" in size taken within the preceding year and is able to furnish satisfactory answers to the questions on the Declaration of Intention form, sample of which I am enclosing herewith for your information so that anyone inquiring may ascertain in advance what the questions are.

If the parties wishing to make application do not want to wait until the next court day then they will have to come to Macleod to take their Declaration before me here.

Yours truly,

CHAS. W. MASON,

Clerk of the Court.

When the court sitting days are known for Blairmore they will be published in The Graphic.

HILLCREST HAPPENINGS

Mr. and Mrs. Joe Jacobs are receiving congratulations on the birth of a son, at Perry's maternity home, Blairmore.

Mrs. Alice Grant entertained at bridge last Wednesday evening, prizes going to Mrs. G. Cruickshank, Mrs. W. Moser and Mrs. H. Hollingshead.

Mrs. J. Hyslop is visiting with relatives in Winnipeg this week.

Mrs. C. Seville and daughter Grace, have been Calgary visitors the past week, enjoying a stay with friends.

Also visiting in Calgary last week were Mr. and Mrs. J. Curry.

A bus load of Scotch enthusiasts attended the Burns' night concert in Coleman last Friday night.

Mr. W. Webster was a Calgary visitor over the week-end, where he was called owing to the illness of his mother.

A meeting was held in the Hillcrest Miners' hall on Sunday, January 19, for the purpose of electing new officers for the year. The meeting was called to order by the secretary-treasurer, Mr. Jack Hyslop and a financial report was read. The following officers were elected: president, Cliff Leicher; vice-president Clarence Rhodes; sec-treas, Dan Squar-cit. The following committee was elected: A. Bianchini, V. Pezzi, L. Belyosky, R. Clark, M. McNeil, J. Brown, E. Montegani, A. Bain, T. Craig, E. Carter, E. Beuden, E. Hartford, M. Wilson and J. Ellick.

The Ladies Auxiliary now elected consists of: Mrs. W. Makin, Mrs. J. Craig, Mrs. A. Grando, Mrs. N. Taber, Mrs. N. Dudley, Mrs. N. Souarek, Mrs. E. Hartford, Mrs. V. Craig, Mrs. E. Montegani, Mrs. J. Ellick, Mrs. J. Jacobs, and Mrs. C. Pitt.

HIGHER EDUCATION

At the Winnipeg CPR there was a pathetic leave-taking. A Jew was about to take a trip to Scotland and all his relatives were there to see him off. There was great weeping and taking on. An old rabbi took him aside and said: "Ikey, why go to Scotland at all. You can't make money there."

"I do not expect to make money there," replied Ikey. "I'm going to Scotland to complete my education."

The honeymoon is over when the husband goes back to setting up exercises in the morning.

WINTER HIGHLIGHTS AT

MOUNT REVELSTOKES AND

BANFF NATIONAL PARKS

The tempo of winter sports in Canada's mountain playgrounds is increasing. It will reach its climax for competitive skiers at Mount Revelstoke, British Columbia, on February 6, 7, 8 and 9, when the Western Canada Ski Championship will be decided. With the cream of the western skiing world competing for the coveted trophies awarded to winners of the various events, this "festival" may well prove reminiscent of the days when some of the most spectacular tournaments in the world were staged at Mount Revelstoke.

For years, many of the records established at this famous event withstood the challenges of great competitors. The increased popularity, finer technique, and improved equipment, however, have stimulated skiers to create new records, and it is the recent amazing mark (4 min. 20 seconds) established on the new downhill course is an indication of what is to come, several new records may be set at the forthcoming "meet".

Teams representing many universities and ski clubs are getting preliminary training in the numerous competitions now being staged throughout the western provinces. The Canadian selection committee for the 1948 Olympic ski team is no doubt watching performances throughout Canada, and it is quite possible that some of the winners at Mount Revelstoke may be wearing the famous "Maple Leaf" when Canada's team meets the world's best skiers in 1948.

Banff National Park has added another thrilling attraction to its winter sports program. A new "mile-a-minute" toboggan slide has been constructed on the Old Caribou street site. The starting point is only a short distance from the Upper Hot Springs road. In a recent trial test two of the builders of the slide made the half a mile descent in 30 seconds. Tobogganists will not only get a real thrill with little exertion but will also be afforded splendid views of Banff Townsite, Cascade, Stoney Square, and Norquay Mountains. Sunshine and powder snow blue skies and dry air, the splendor of towering mountain peaks—a veritable winter fairland—have helped to make this world-renowned mountain resort popular in winter as well as in summer.

There is more good news for Banff Skiers. Improvements have been made to the trail from the Upper Hot Springs, so that it is now an excellent gentle slope for novices. The innovation of a ski-tow at Mount Norquay is also proving very popular.

For the first time in more than six years, the "snow special" ski trains have run arriving in Banff filled to capacity. All signs indicate that Mount Revelstoke and Banff National Parks may receive the greatest number of winter visitors in many years.

Canadian Citizenship

WITH THE COMING OF THE NEW YEAR Canadians have acquired for the first time the legal status of Canadian citizenship. The Canadian Citizenship Act, which came into force on the first of January now gives the people of this country the right to describe themselves on passports and other legal documents as Canadians. British citizenship, which all Canadian citizens have held in the past, and will continue to hold under the new regulations, is a privilege which few people would underestimate, but at the same time there is no doubt but that most Canadians find satisfaction in at last being able to claim legal citizenship in the country which is theirs either by birth or by adoption.

Act Of Faith In The Future

The new Citizenship Act has been called "an act of faith in Canada and in Canada's future." Certainly it is timely for Canadians to give thought now to the meaning of their citizenship and to the privileges and responsibilities which go with it. During the war, the great potentialities of Canada's resources, both human and material, were at last fully realized and her status as a nation increased enormously. A high degree of unity was achieved, both in the armed forces and at home, as people from all parts of the country learned to work together in a great common purpose. Like most countries, Canada is now seeking to set a course, politically and economically, in the post-war world, and amid the problems and uncertainties of the times there is need, indeed, for a continuation of the national consciousness born during the war, and for the people to continue to work together as Canadians in building for the future.

Contribute To National Life

One highly commendable feature of the new Citizenship Act is that now new Canadians who have qualified for citizenship take part in ceremonies which impress upon them the meaning of their new status. There are perhaps none who will welcome this change as much as the new citizens themselves. Most of them come here looking upon Canada as a place where there will be freedom and opportunity which they did not have in their native lands, and formal recognition of their qualification for full citizenship will mean much to them. We may be proud indeed of the people of many races who claim Canadian citizenship and contribute so richly to all phases of our national life. The new Citizenship Act has marked a milestone in Canada's development as a nation, and much of her future depends upon the manner in which all Canadians guard the privileges and fulfill the duties of citizenship.

Thousands Immunized In Quebec City Drive

QUEBEC CITY, Que.—More than 6,000 children were started on the way to complete immunization against diphtheria and whooping cough in the last few weeks as a result of an intensive drive launched by the local branch of the Health League of Canada in co-operation with provincial and city health officials.

It is the hope of the sponsors of the scheme that more than 25,000 city and district children will have been immunized against the menace of these two diseases by next spring. Clinics have been set up in the city's 28 parishes. Municipal authorities are supplying the necessary toxoid and vaccine and hundreds of volunteers—doctors, nurses and others—are participating.

This drive to supply free immunization to the children of this district was well publicized in advance, and on the first day some clinics were swamped as mothers, baby carriages and children swarmed around them. One observer said the scene at one clinic reminded her of a Christmas baby parade.

Molasses is shipped by tanker, and is heated a day or two before the ship reaches port to facilitate its discharge.

AUTOMOBILES STILL PRICE CONTROLLED

The Prices Board gave a break, for what it was worth, to the Canadians who still dream of getting a new car.

Motor vehicles, including cars, motorcycles, trucks and trailers, remained within the grip of price controls in the latest Government decree of de-control. Thus they remained within legal maximum price limits although new car prices were recently allowed to rise 10 per cent.

Bound to the ceiling, too, were pneumatic tires and tubes, storage batteries and bicycles and their parts, as well as motor vehicle parts and accessories.

FUNNY and OTHERWISE

"Miss Flurry, I wish you would not write personal correspondence during office hours. Letters can get mixed in a most annoying way."

"Why, what's happened, Mr. Storm?"

"Here's a complaint in today's mail from the Whirp magazine. They say they ordered a shipment of axle grease and then got a letter from us saying that we were sending them loads of love."

Although it was getting late, the lovers still lingered in the shadowy hall of their ancestral mansion. It was obvious she was pleading with him about something, but in vain.

"It's so very, darling," he said in a broken voice, "I simply can't face your father to ask him for your hand."

"You needn't be frightened of facing him, dear," replied the girl coaxingly; "the greater danger is when you turn your back."

Customer—A dozen eggs, please. Grocer—We have first grade eggs, second grade eggs, third grade eggs.

Customer—Don't bother any further. Just let me have some that have graduated!

"Is that young man courting you, Ethel?" asked her aunt.

"Not exactly; but he's approaching step by step."

"How do you mean?"

"Well, the first time he called he spent the evening with my autograph album on his knee."

"Yes, but—"

"The second time he nursed my dog. Last night he took my little brother on his lap. He was 40. It's gradually working around to my turn."

First Business Man—"Since I bought a car I don't have to walk to the bank to make deposits any more."

Second Business man—"You drive there eh?"

First Business man—"No, I don't make any."

A young widow put up a costly monument to her late husband, and had inscribed upon it: "My grief is so great that I cannot bear it."

A year or so later she married again and changed the inscription to read: "My grief is so great that I cannot bear it alone."

Needless Fires

Great Number Of Them Caused By Careless Cigarette Smokers

Some cigarettes, dropped or discarded, continue to burn to the last wisp of tobacco and paper; others die quickly of themselves.

Obviously those of the first type are much the likelier to cause trouble if tossed into a wastepaper basket or allowed to fall into a sofa or bed or cushioned chair. Even a short bit of this type will hold fire for several minutes, while the other sort extinguishes itself almost at once.

So very large a proportion of our needless fires are attributed to cigarettes that one wonders whether the manufacturers should not consider giving all varieties the treatment which apparently some varieties now receive.—Ottawa Journal.

"UNCLE SUGAR'S" GIFTS BATTLE TRAM DRIVER

Puzzled by windfall, Arthur Dunn, Denver street car operator, looks at latest \$50 entry in his bank book. The U.S. government deposited \$450 to his account since last June, and he can't find out why.

WORKERS WILL HAVE TO STAY ON JOB

Canada can't get caught up on production in 1947 if workers stay on the job, Labor Minister Mitchell said on his return from a month-long trip to the West Indies and South America.

"Our problem is one of continued production at a price that will permit mass production," he said. "If we stay on the job and keep turning out the things Canada needs, we need have no fears for the future."

Tanned and fit after his first holiday since 1941, Mr. Mitchell said he returned with the conclusion "that Canada is the best country in the world to live in."

"You needn't be frightened of facing him, dear," replied the girl coaxingly; "the greater danger is when you turn your back."

The firefly is not a fly but a beetle.

SUBMARINES TO HELP COAL SHORTAGE

LONDON.—The Admiralty called out its submarines to generate power and light for royal dockyards, saving the dockyards' coal for industry in Britain's fuel crisis.

An admiralty spokesman said 30 more submarines would be assigned and each could generate about 1,000 kilowatts a day. They burn oil. A weekly saving of 2,000 tons of coal was envisaged.

Several factories have closed and others are threatened because of the fuel shortage.

During the war submarines were used to feed the Italian generating station at Naples after the Germans were driven out of the city.

Several miles of cable will be necessary to link up the submarines with the dockyards.

GEMS OF THOUGHT

UNITY

Men's hearts ought not to be set against one another, but set with one another, and all against evil only. —Caryle

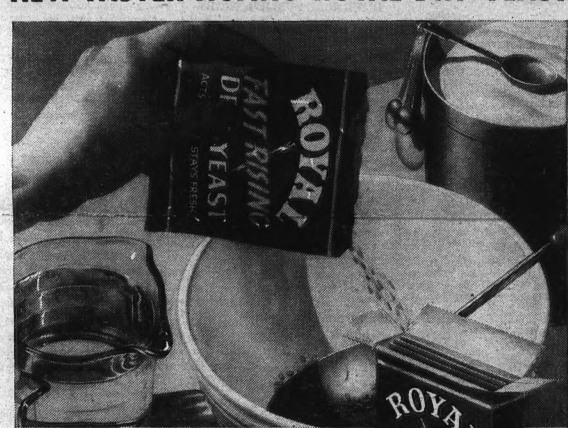

The multitude which does not reduce itself to unity is confusion; the unity which does not depend upon the multitude, is tyranny.—Pascal

Individuals, as nations, unite harmoniously on the basis of justice, and this is accomplished when self is lost in Love—or God's own plan of salvation.—Mary Baker Eddy

Jesus throws down the dividing prejudices of nationality, and teaches universal love, without distinction of race, merit, or rank.—Geltke

Whoever in prayer can say, "Our Father", acknowledges and should feel the brotherhood of the whole race of mankind.—Tryon Edwards

New Assistance Is Offered To War Veterans

OTTAWA.—The Veterans Business and Professional Loans act, passed at the last session of parliament as a measure to encourage financial assistance to veterans at low rates of interest, is proclaimed, Veterans Minister MacKenzie announced.

Proclamation of the act was withheld while regulations for administering it were re-drafted, the minister said. This task now has been completed, in co-operation with the department of finance and the Chartered Banks of Canada.

The loans under the act will be available to veterans who have received war service gratuities but have not already been given assistance under the Veterans' Land act. Veterans may apply for the loan for the following purposes:

1. For purchase of a business or partnership.
2. Purchase or repair of machinery, tools, instruments or other equipment of business.
3. Construction, repair or alteration of, or making of additions to, any building or structure used or to be used in the carrying on of business.
4. Any purpose as prescribed which may be deemed to benefit the veterans' business.

Loans will be made for varying purposes, depending on the size of the loan and the individual circumstances of the borrower. The maximum term will be 10 years and the rate of interest five per cent. The act defines business as including trade, industry or profession.

The banks themselves will be guaranteed by the government against loss up to 25 per cent. of the overall aggregate amount of loans up to \$1,000,000 and 15 per cent. thereafter. They may follow the same procedure but the act permits the banks to take additional lending security.

Loans made within five years up to a maximum of \$25,000,000 are guaranteed under the act.

"It should be made clear that this legislation does not mean the government itself is lending money to veterans," said Mr. MacKenzie. "The loans will be made by the Chartered banks and the banks themselves will decide on the credit status of those applying. These loans will be facilitated by the guarantee against the proportion of possible loss as provided by the new act. Veterans are therefore advised to make their applications directly to a Chartered bank."

STRESSES NEED OF INDUSTRIAL WEST

VANCOUVER.—Rt. Hon. James G. Gardiner, minister of agriculture, said today that the industrial development throughout western Canada is an interview here.

"Development from here to Winnipeg has to come—and if the industrialists will not do it, the people will take over and see that it is done," the minister declared.

"It is my opinion industry should be developed all over western Canada and especially from Vancouver to Calgary."

Mr. Gardiner said that often, in the past, large industries bought up smaller, localised industries and closed them up to provide selling fields for their own products instead of opening up and developing new territories.

"There would be no use talking of enterprise operating industry if they continued to do it as they had in the past," he said bluntly.

"We need some sensible people in industry."

ICE ANAESTHETIC PROVES SUCCESSFUL

WINNIPEG.—An unusual surgery operation, using ice as the only anaesthetic, has been performed at Deer Lodge, Man., hospital on Sgt. Maj. John Alexander, 79-year-old veteran, it was learned here. A gangrenous foot required amputation of his leg "through" the knee.

Dr. W. L. Gunn, hospital superintendent, said a regular anaesthetic was not used because of the man's age. This is believed to be the first use of ice as an anaesthetic for an operation of this nature in Winnipeg, he added.

Sgt. Maj. Alexander said he was not able to see what the doctors were doing but he could hear them "sawing away."

WILL GO ON TRIAL

VENICE, Italy.—The British supreme command in Italy announced that Field Marshal Albert Kesselring, former supreme German commander in southeast Europe, will go on trial for war crimes before a British military court in Venice next month.

SETS NEW RECORD

AMSTERDAM.—A New York-to-Amsterdam flight record was set by a Dutch Constellation aircraft which completed the 3,600-mile trip in 11 hours, four minutes, compared with the previous record of 12 hours.

World's Major Armies Is Estimated At 11,000,000

Russia Has Largest

WASHINGTON.—The second year of peace finds an estimated 11,000,000 men and women in the world's major armies.

This figure is based on a compilation made by Maj. Hal D. Steward of El Paso, Texas, mainly from United States war department intelligence reports, for an article in the current issue of the semi-official armored cavalry Journal.

Maj. Steward, a cavalry officer, stressed that the report does not pretend to be wholly accurate since secrecy and evasion cloak the strength of some countries, notably Russia which is believed to have the world's largest army at present.

The five major world powers have an estimated total of 8,650,000 including 2,700,000 in the Chinese national army. In addition, communist China is reported to have nearly 1,000,000 men in service.

Maj. Steward estimates the Russian army now numbers about 3,000,000. China comes next with about 2,700,000 regulars in the national army, Britain third with about 1,500,000, the United States fourth with 1,300,000 and France fifth with 150,000.

One of the largest armies, he said, is maintained by Yugoslavia—nearly 800,000, of whom 10 per cent are women.

BRITAIN CURTAILS COAL DELIVERIES

LONDON.—Faced by the most serious fuel crisis in the country's history, the British government has announced an over-all cut in coal deliveries to industry.

Sir Stafford Cripps, president of the board of trade, admitted to a press conference that the export drive might be affected though it is hoped not seriously. Any unemployment caused by the cut would be "very small—practically nothing."

Domestic fuel supplies will not be cut and electricity and gas plants will be given "enough coal to work full out"—but even the iron and steel industry and industrial coke ovens will be short of requirements by an estimated 300,000 tons weekly.

In addition to the industrial cut, Sir Stafford said that hotels, restaurants and movie theatres might have to use less electricity and coal but there will be no further dimming of street light.

Fuel Minister Shiwell who also met with the press said that allocation would be put on a "realistic scale"—about half the previous allocation.

CEILING REMAINS

No Change In Price On Gasoline And Tractor Distillates

OTTAWA.—While the import subsidy on crude oil is being withdrawn, federal officials said price ceilings on gasoline and tractor distillates would remain at present.

The subsidy is being removed, it was stated, in line with government policy to withdraw this type of wartime assistance generally as soon as possible.

It was understood some protests against the subsidy removal, chiefly on the ground it might affect gas prices, had been received. It was emphasized that no price increases beyond the existing ceilings would be permitted.

Subtracting the immigrants of British racial origin and those from the U.S., a total of 51,921 from the total of 58,992 who came to Canada in the first nine months of 1946, leaves 7,071 immigrants from other countries, nearly all from Europe.

But this 7,071 does not include the nearly 4,000 Polish soldiers brought to Canada for farm work who are not counted on an immigrant basis. If these 4,000 Poles were counted, it would bring the total of newcomers to Canada in the first nine months of 1946 to nearly 63,000.

Still more significant, however, is the rising tide of Canadians returning to Canada, mostly from the United States.

In the nine months ending Sept. 30, 1946, a total of 3,388 Canadians returned to Canada compared to only 1,878 in the same nine months of 1945 and 2,699 for the full year 1945.

FRENCH TRY GENERAL FOR WAR "MURDER"

PARIS.—Senior German military commander in the occupation of France, Gen. Otto von Stupnagel is being tried by a French military tribunal in Paris. He was brought from Germany recently and is accused of responsibility for a long list of murders and other acts of violence.

Stupnagel, a cavalry officer, was brought from Germany recently and is accused of responsibility for a long list of murders and other acts of violence.

Immigration To Canada Is Increasing

OTTAWA.—Immigration into Canada has already been reversed in a major degree from the emigration from Canada during the war.

For the nine months, ending Sept. 30, 1946, a total of 58,992 immigrants entered Canada, according to figures of the department of immigration. This compares with only 13,299 who entered Canada in the same nine months of 1945 and with 22,722 immigrants into Canada for the full year of 1945.

Of this total of 58,992, those of British racial origin—English, Irish, Scots and Welsh, totaled 43,272. That compares with 12,989 for the same nine months of 1945 and 14,677 for the full year 1945.

Of course, this 43,272 of British racial origin included the wives and children of returning veterans, most of whom have now arrived.

But against this decline, there is a significantly rapid rise in immigration from the United States.

Thus of the total of 58,992 immigrants arriving in Canada in the nine months ending last September, 8,649 were from the United States. That 8,649 of American immigrants coming to reside permanently in Canada compares with only 4,362 for the same nine months of 1945 and with 8,394 for the full year 1945. This is of American immigration is increasing.

Subtracting the immigrants of British racial origin and those from the U.S., a total of 51,921 from the total of 58,992 who came to Canada in the first nine months of 1946, leaves 7,071 immigrants from other countries, nearly all from Europe.

But this 7,071 does not include the nearly 4,000 Polish soldiers brought to Canada for farm work who are not counted on an immigrant basis. If these 4,000 Poles were counted, it would bring the total of newcomers to Canada in the first nine months of 1946 to nearly 63,000.

Still more significant, however, is the rising tide of Canadians returning to Canada, mostly from the United States.

In the nine months ending Sept. 30, 1946, a total of 3,388 Canadians returned to Canada compared to only 1,878 in the same nine months of 1945 and 2,699 for the full year 1945.

NEW SELLING PHASE BY WAR ASSETS

OTTAWA.—War Assets corporation has entered a new phase of selling activity with inauguration of warehouse "inspection and bid" sales. E. R. Birchard, vice-president in charge of merchandising for the corporation, said.

When a warehouse sale is decided on, goods for sale are arranged in lots convenient for inspection. They are small enough to permit buyers of limited means to compete with larger buyers.

Following the inspection period four days are allowed for reception of bids, after which the highest bidder is notified of acceptance of his offer provided the price is equitable. Unsuccessful bidders also are informed of non-acceptance of their offers. Special mobile units have been organized to handle these sales and each unit includes an information section.

COMPLETE PARATROOP COURSE

OTTAWA.—Seven officers and two other ranks of the Canadian army active force baled out of a plane over Camp Shilo, Man., recently to complete their paratroop course and become the first Canadian paratroopers to qualify for their "jump wings," defence headquarters disclosed.

SHIPS CARRY WHEAT FOR ITALY

WASHINGTON.—Six American ships carrying army wheat to Germany have been ordered to proceed instead to Italy to serve of famine and food riots, it was disclosed.

This was revealed as Italian premier Alcide de Gasperi prepared to fly to Rome armed with assurances of other United States financial and economic aid for his war-improvised country.

Assistant Secretary of War Howard C. Peterson announced that the war department had received an urgent request from the United Nations relief and rehabilitation administration all possible aid in relieving the "acute distress in Italy."

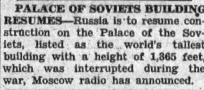

The ships are carrying about 50,000 tons of wheat originally destined for American forces in Germany. The announcement came after the export-import bank had disclosed its "willingness" to extend \$100,000,000 (M) in credits to restore and expand certain segments of Italy's export market.

BUTTER PRODUCED IN 1946 DOWN

OTTAWA.—The dominion bureau of statistics reported that creamery butter production in December totaled 10,292,000 pounds against 10,505,000 pounds in December 1945, bringing production for the whole of 1946 to 270,150,000 pounds against 293,541,000 pounds in 1945.

On the basis of December figures, the bureau said declines in production were reported in all provinces except Quebec and Ontario, which showed an increase of 9.7 and 9.5 per cent. respectively.

The bureau said an appraisal of the creamery butter situation over the past four months of 1947 indicated that, on the basis of present levels of rations and allocations, prospective supplies will be approximately 11,000,000 pounds below requirements.

PALACE OF SOVIETS BUILDING RESUMES—Russia is to resume construction on the Palace of the Soviets, listed as the world's tallest building with a height of 1,365 feet, which was interrupted during the war, Moscow radio has announced.

Great Britain To Support U.S. Atomic Stand

NEW YORK.—Authoritative sources said that Great Britain will support the United States in insisting atomic energy control be given priority over general disarmament if there is a showdown with Russia in the United Nations security council.

Russia is insisting that "all phases" of world disarmament be taken up immediately by the 11-power security body. She is opposed to giving priority to atomic energy control.

The United States argues that atomic energy control should be given top consideration on the grounds that if there is an international system of protection from atomic weapons, the problem of less weapons should not prove insurmountable.

Delegates believed the basic argument over priority may be resolved when the security council meets. Under the Russian proposal, atomic energy would be included in disarmament discussion but without any special priority such as the United States demands.

An American source said the United States delegation wanted the security council to consider the report of the atomic energy commission as the first action under the U.N. assembly's resolution calling for world-wide disarmament.

"A" CIRCUIT FAIR DATES SET

The Western Canada association of exhibitors, known as "A" circuit, and the Western Canada Fairs association, "B" circuit, met recently at the Fort Garry hotel, with vice-president J. Charles Yule in the chair.

The dates for "A" circuit for 1947 are as follows:

Brandon—June 30 to July 4—5-day show.

Calgary—July 7 to 12.

Edmonton—July 14 to 19.

Saskatoon—July 21 to 26.

Regina—July 28 to August 2.

Dean Grant MacEwan, of the University of Manitoba, was chosen as chairman of the attractions committee, Arthur H. McGuire of Calgary to head the concessions, G. E. Wilson of Saskatoon to handle livestock. Saskatoon was also represented by A. M. McIntyre, who is in charge of the midway committee, J. F. Sweeney, of Regina, in charge of racing.

For the "B" circuit, A. W. Shaw of Vegreville, Alberta is officiating as president, with Keith Stewart of Portage la Prairie as secretary.

Where There Is A Will There Is A Way

CHICAGO.—Been dreading that talk you've planned with the little wife about holding down her budget? There is nothing to fear, says Frank Morgan, Chicago dance instructor, if first you whirl her around the living room a few times in a snappy tango.

Morgan says a study of the dance, its cause and effect, has convinced him that rhythm and anger don't mix.

Starting from there, Morgan devised a series of special dances which he claimed were sure-fire to (1) make someone see things our way; (2) condition someone for unpleasant news or (3) patch things up quickly if the damage is already done.

For example: The wife is about to go shopping for a new hat hubby can't afford. Says Morgan, "this calls for the schottische, a very friendly little bit of old-fashioned dancing. Then he can tell her."

Or there is a disagreeable chore to perform that could start an argument. Preface the chore with a rumba, Morgan urges, and no fight can start.

Production Of Stock Needed Says Gardiner

CALGARY.—The government, working in co-operation with farm organizations, has made "every provision" for the farmer collecting his reasonably expected portion of the national income, Rt. Hon. James G. Gardiner, federal minister of agriculture, told the United Farmers of Alberta annual convention.

"The only question remaining," he went on, "is as to whether that is what the whole farming community desires. The gross income can be increased by producing to the limit that which brings in the most cash and the net income by producing what pays best."

Questioned after his formal address on the government's policy toward inducing greater barley production, Mr. Gardiner said an announcement would be made after his return to Ottawa. He pointed out that the provinces and the farm organizations represented in the C.F.A. proposed that there be an acreage subsidy of \$5 per acre on all land put into barley, and that present equalization payment come off and the price remain the same.

The government is "considering" this proposal, he said, and will either provide an acreage subsidy or increase the price.

After giving figures to show the great effect of increased livestock production on farm income during the war years, Mr. Gardiner advised farmers to stay with President Roosevelt.

"If a farmer sells all his feed grain to Denmark or the United States or the brewery just because he can get a little more money, he loses that part of his plant which pays the best profits, he should not be surprised if Denmark and the United States and the brewery for that matter, take a lower price when he no longer has a market for hogs, beef or dairy products in this country."

"The only way farmers can get and maintain their reasonable share of the national income, granted they have an assured market and reasonable prices, is through mass production of what they have a reasonable market for, and preferably the finished product, such as cattle, hogs and eggs. If we want our share of the national income, it is in our hands. We have the market. We have the price."

"We can only hold the market and the price if we supply the demand for the finished product rather than pass on the raw materials to someone else. If we want our share of the national income, it is in our hands. We have the market. We have the price."

"The minister discussed wheat policy at length and criticized the attitude of the grain exchange to export policy."

He quoted a grain exchange advertisement "what guarantee have you that, because you accept a lower price now you will get a higher price later?"

And his answer: "All I can say in reply is that I personally disapprove the matter with the British officials and their minister. They are agreed that we are entitled to have possible losses in the first two years when we have no control."

In the last two, they have no stated in the contract.

"I have at least as high a regard and respect for the word of the British government as I have for that of the grain exchange, and I know the western farmers have a much higher regard for the British government whatever party heads it."

TRACTOR-TRAIN BRINGS FOOD

THE PAS, Man.—A second provision-loaded caterpillar train—eight tractors drawing 32 sleds—crawled toward the mining and Indian settlement of God's Lake, 280 miles east of The Pas, to dispel for the winter the threat of another enforced fish diet for the 614 residents.

Bad weather which interfered with the operation of the caterpillars, and the dwindling of supplies on the shelves of the settlement's sole store had precipitated a minor crisis in the lives of the 14 white and 500 Indian residents. They were forced to go on an almost 100 per cent. fish diet.

The first caterpillar train was hailed joyously by practically every resident. Extra help was employed at the store to open the cases. As soon as the shelves were filled with the eager Indians emptied them.

TO REDUCE PRICE OF CITIZENSHIP PAPERS

OTTAWA.—Loud protests from numerous Canadians who object to paying \$5 apiece for the new Canadian citizenship certificates for themselves and their wives have caused the government to change its mind. The \$5 fee is to be reduced, it was admitted by Hon. Colin Gibson, secretary of state.

Mr. Gibson was not certain yet how much the fee would be cut. It may be the certificates will be reduced to \$1 or even given free to native-born Canadians. Foreign-born naturalized Canadians may still be charged the \$5 fee.

BYRNES RETIRES AS SECRETARY OF STATE—Gen. George C. Marshall (right) is shown with James F. Byrnes, who he succeeds as secretary of state. Failing health forced Byrnes' resignation. General Marshall has spent the last 13 months in China as a special representative.

A POSER FOR BOOZERS

If you are a married man who absolutely must drink booze, start a saloon in your own home. Be the only customer and you won't have to buy a license. Give your wife two dollars to buy a gallon of whiskey. Remember there are sixty-nine glasses in a gallon. Buy your drinks from your wife.

When the first gallon is gone, your wife will have eight dollars to deposit in the bank, and two dollars to start business again. If you should live ten years, continue to buy booze from her and then die with snakes in your boots, your widow will have enough money to bury you respectably, bring up your children, buy a house and lot, marry a decent man and forget all about you!—Religious Telescope.

You can't fly a kite unless you go against the wind and have a weight to keep it from turning somersault. The same with man. No man will succeed unless he is ready to face and overcome difficulties and is prepared to assume responsibilities. — Wm. J. H. Boetcker.

VETERANS' LOAN ACT

The veterans' business and professional loans act, which provides that a veteran may apply to a bank for a loan up to two-thirds of his total expenditure, but not exceeding \$3000, became effective January 15.

In announcing January 15 as the effective date of the proclamation of this act, which was passed at the last Parliamentary session, the Right Honourable Ian A. MacKenzie, P.C., Veterans' Affairs Minister, stated regulations for its administration have now been completed in co-operation with the department of finance and the chartered banks of Canada.

"The purpose of the new Act," he said, "is to encourage banks to provide additional funds at a comparatively low rate of interest to assist veterans seeking to establish themselves in business or professions."

"It should be made clear that this legislation does not mean the Government itself is lending money to veterans. The loans will be made by chartered banks and the banks themselves will decide on the credit status of those applying. Those loans will be facilitated by the guarantee against the proportion of possible loss provided by the new act. Veterans are therefore advised to make their applications directly to a chartered bank."

The Minister explained the function of the department of veterans affairs in operation of the act will be limited to defining veterans who might be covered by the act. Mr. MacKenzie explained the act was available to veterans who had received War Service Gratuities, but had not already been given assistance under the Veterans' Loan Act.

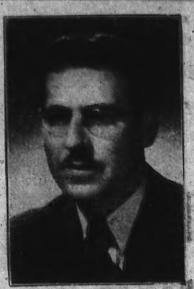

The Minister went on to outline the provisions of the new act.

Under the legislation eligible veterans may apply for the loan for the following purposes:

(1) Purchase of a business or partnership.

(2) Purchase or repair of machinery, tools, instruments or other equipment for his business.

(3) Construction, repair or alteration of making of additions to, any building or structure used or to be used in the carrying on of business.

VISITOR

Among CBC men who attended the convention of the Canadian Federation of Agriculture at Winnipeg, Jan. 27-29, is Ab Kemp, of Toronto, assistant supervisor of farm broadcasts.

used in the carrying on of business.

(4) Any purpose as prescribed which may be deemed to benefit his business.

Loans will be made for varying periods depending upon the size and purpose of the loan and the individual circumstances of the borrower. The maximum term is ten years, and the rate of interest 5 per cent. The act defines business as including trade, industry or profession.

A veteran may borrow under this act by the government against loss not to buy into a joint stock company. In buying into a partnership, it was felt, a veteran would have a greater voice in the management.

The banks themselves are guaranteed by the government against loss up to one million dollars and 15 per cent thereafter. They may also follow the normal lending procedure but the recent Act permits the banks to take additional lending security.

Loans made within five years up to a maximum of \$25,000,000 are guaranteed under the act.

The Press educates, disseminates truth, stimulates ingenuity and its advertising creates mass production that is democracy. — World's Paper Trade Review.

And we further certify that we have counted the cash on hand and have examined the Bank Books or obtained information from the Bank regarding the Bank Balance, showing there is a balance on hand amounting to:

Actual balance in Bank \$23,279.53
The outstanding Cheques total 289.22

We further hereby declare in our opinion the foregoing Financial Statements are properly drawn up so as to exhibit a true and correct view of the financial affairs of the School District, according to the best of our information, the explanations given to us, and as shown by the records of the District.

COLLINS & COLLINS,

Chartered Accountants,

Calgary, Alberta.

Date of this Audit: January 13th, 1947.

We have audited the accounts of the Town of Blaimore for the year ending December 31, 1946, and have compared the said accounts with their relative vouchers and certify that in our opinion the foregoing financial statements are properly drawn up so as to exhibit a true and correct view of the financial affairs of the Town, according to the best of our information, the

explanations given to us and as shown by the records, subject to any qualifications mentioned in Auditors' Special Report herewith.
Dated at Blaimore this 15th day of January, 1947.
Signed COLLINS & COLLINS,
Chartered Accountants,
Address: Calgary, Alberta.

IMPORTANT GOVERNMENT NOTICE

Respecting Price Control

The Wartime Prices and Trade Regulations (Order in Council P.C. 8528 of November 1, 1941) established basic period maximum prices for goods and designated services. These regulations were passed under the authority of the War Measures Act and continued in force under the National Emergency Transitional Powers Act, 1945.

From time to time these basic maximum prices have been varied or the fixed maximum has been suspended in the case of particular goods and services by Orders issued by the Wartime Prices and Trade Board under the authority of the above Regulations. A few days ago a substantial number of suspensions from price control was announced.

I believe it is desirable therefore that a summary should now be published of those goods and services on which a legal maximum price remains in force under the provisions of the Wartime Prices and Trade Regulations so that all citizens may be given an opportunity to inform themselves of the law.

The complete price control regulations are contained in Wartime Prices and Trade Board Order No. 684 which is available to the public at any office of the Wartime Prices and Trade Board, and to which reference should be made for exact details.

Douglas A. Ross
Minister of Finance.

Summary of

GOODS AND SERVICES REMAINING SUBJECT TO MAXIMUM PRICES

Under Wartime Prices and Trade Board Order No. 684

FOODS

- All flours, flour mixes and meals.
- Yeast.
- Bread, bread rolls, biscuits and bakery products.
- Processed cereals, cooked or uncooked, including breakfast cereals, macaroni, vermicelli, spaghetti, noodles and other alimentary paste products.
- Rice.
- Pot and pearl barley.
- Shelled corn, but not including popping corn.
- Dried peas, soy beans, dried beans except lima beans and red kidney beans.
- Baking powder.
- Starch.
- Sugar, sugar cane syrup, corn syrup, grape sugar, glucose.
- Edible molasses.
- Honey.
- Maple products—1946 production.
- Candy, confectionery and caramels.
- Tea, coffee, coffee concentrates.
- Cacao beans, cacao butter.
- Cocoa and chocolate and beverage preparations containing cacao or powdered milk.
- Soft drinks and soft drink concentrates, except mineral, sparkling or spring waters in their natural form.
- Malt, malt extract, malt syrup.
- Vinegar.
- Black pepper and white pepper, and substitutes containing black or white pepper.
- Butter.
- Caseln.
- Cheddar cheese, processed cheese and cream cheese.
- Concentrated milk products of all kinds.
- Ice cream.
- Prepared salad dressings; salad and cooking oils.
- Salt.
- Fresh apples—1946 crop.
- Raisins, currants, prunes, dried dates, dehydrated apples.
- Tomatoes, tomato sauce, tomato paste, tomato pulp, tomato puree, tomato catsup, chili sauce, when in hermetically sealed cans or glass.
- Canned pork and beans, canned spaghetti and canned soups.
- Canned corn, canned peas, canned beans excluding the lima and red kidney varieties.
- Canned apricots, canned cherries, canned plums.
- Fruits and vegetables in the two preceding items when frozen and sold in consumer size packages.
- Jams, jellies, marmalades.
- Meat and meat products, not including game, pet foods, and certain varieties of cooked and canned meats and sandwich spreads.

- Sausage casings, animal and artificial.
- Live and dressed poultry; poultry products except certain varieties of canned poultry and frozen poultry sandwich spreads.
- Eggs in the shell; eggs frozen or powdered.
- Canned salmon, canned sea trout, canned pickled herring.
- Edible animal and vegetable fats including lards and shortenings.

CLOTHING

- Men's, youths' and boys' suits, pants, coats and other clothing except fur coats.
- Fabric caps.
- Men's, youths' and boys' furnishings, as follows: shirts, collars, blouses, underswear, pyjamas, night shirts and dressing gowns.
- Women's, misses', girls', children's and infants' garments of all kinds (except fur coats) and of any material (except pure silk).
- Brassieres and foundation garments.
- Women's, misses', girls' and children's accessories as follows: dresses, blouses, hatters, neckwear, collars, cuffs and aprons.
- Children's and infants' headwear of all kinds, except misses' millinery or hats made from fur felt.
- Knitted wear of all kinds for either sex, including undergarments, outer garments, hosiery, stockings, socks and headwear, but not including pure silk garments, silk stockings or women's and misses' millinery.
- Handkerchiefs.
- Work clothing, including aprons, for either sex.
- Uniforms for either sex.
- Sportswear for either sex, but not including bathing suits and bathing caps.
- Rubber clothing, rubberized clothing, waterproof, showerproof and oil proof clothing, except specialized industrial clothing.
- Gloves, gauntlets, mitts and mittens of all kinds for either sex, except those designed as specialized sports equipment or for specialized industrial use.
- Diapers and diaper supports.
- Footwear of all kinds and of any material.

HOUSEHOLD AND OTHER TEXTILES

- Auto and travelling rugs, awnings, bath mats, bedspreads, blankets of all kinds, canvas fronts, card table covers, comforters, curtains, cushion forms, dish cloths, dish towels, drapes, eiderdowns, face cloths, hammocks, luncheon sets, mattresses of all kinds, napkins, pillows, pillow cases, pillow forms, quilted suits, sheets

- (including rubber and plastic coated sheeting), shower curtains, silence cloths, sleeping bags, swings, table cloths, tents, throw-overs, towels, wash cloths, window blinds, window shades.
- Slip covers for furniture; covers for baby carriages, bassinets, cribs, cushions, mattresses, ironing boards and toilet seats.
- Pads for baby baskets, baby carriages, card tables, chairs, ironing boards, mattresses and playpens.
- Bags for household use, garment bags, haversacks, dunnage bags.
- Tarpaulins and other protective coverings of canvas.
- Scrap fabrics, including used scrap fabrics except wiping rags.
- Floor rugs and mats chiefly of cotton.
- Table and other oldcloths.

DOMESTIC FUELS

- Coal, coke and briquettes.
- Wood fuels, sawdust and charcoal.

HOUSEHOLD EQUIPMENT AND SUPPLIES

- Cooking stoves and ranges, but not including gasjettes.
- Electrical and gas refrigerators.
- Washing machines.
- Furnaces, fire-place heaters and other heating equipment except portable electric heaters.
- Jack heaters and other water heating equipment.
- Plumbing and sanitary equipment as follows:
 - (a) All pipe and fittings of a type and size suitable for installation in domestic heating and water systems.
 - (b) All equipment known commercially as "plumber's brass".
 - (c) Other plumbing and sanitary equipment as follows: bathtubs, closet bowls, commodes, closet seats and hinges, chemical closets, closet tanks, household water softeners, household water storage tanks, lavatories, laundry tubs, septic tanks, sinks, shower baths, soil pipe and fittings, wash basins.
- Domestic sewing machines.
- Soup and soap compounds.

MOTOR VEHICLES AND ACCESSORIES, BICYCLES

- Motor vehicles, including parts and accessories, as follows: passenger motor vehicles designed to carry less than ten persons; motorcycles; trucks and trailers used with trucks.
- Automotive truck bodies.
- Pneumatic tires and tubes.
- Storage batteries, except for specialized industrial uses.

BICYCLES, PARTS AND ACCESSORIES

- Bicycles, parts and accessories.
- CONSTRUCTION PRODUCTS
- Lumber of all kinds.
- Milwork such as doors, sashes, windows, stairs and gates.
- Plywood and veneers.
- Pre-cut lumber products designed for use in residential or farm buildings, but not including fully pre-fabricated buildings.
- Gypsum board and gypsum lath.
- Wallboards and building materials.
- Insulation products, but not including pipe and boiler covering.
- Builders' lime and plaster.
- Cast iron soil pipe.
- Nails, staples, rivets, bolts and nuts.
- Builders' hardware and locks.
- Building wires and wiring devices for residential buildings.

AGRICULTURAL MACHINERY, IMPLEMENTS, EQUIPMENT AND SUPPLIES

- Practically all items of farm machinery, including plowing, seeding and fertilizing equipment; plows, tillage implements, cultivators, haying machinery, harvesting machinery, tractors, wagons, dairy machines and equipment, sprayers and dusters.
- Articles of barn and barnyard equipment.
- Incubators, brooders, poultry feeding and watering equipment.
- Stationary gas engines.
- Beekereepers supplies.
- Harness and harness hardware.
- Barbed wire and other fencing wire and fences.
- Horseshoes and horseshoe caulkers and nails.
- Blender twine.
- Wheelbarrows.
- Fruits and feed products of all kinds except horse meat, pet foods, straw, clam shell and poultry grit.
- Agricultural limestone, hydrated lime and chemical fertilizers of all kinds.
- Gopher poison.
- Seed beans and seed peas.
- Grains as follows: wheat; barley; oats; flaxseed; buckwheat; rapeseed; sunflower seed; grain screenings.

RAW AND PROCESSED MATERIALS

- Basic iron and steel products and alloys, including pig iron, cast iron, scrap, ingots, bars, plates, rods, and wire.
- Primary, secondary and fabricated mill forms of the following non-ferrous metals and their alloys: aluminum, antimony, copper, lead, nickel, tin and zinc.

- Tractor distillates and gasoline.
- Crude rubber, synthetic rubber and latices, reclaimed rubber.
- Basic industrial or agricultural chemicals.
- Dyestuffs, pigments and oxides.
- Plywood and veneers.
- Crushed or burnt limestone.
- All fats and oils, including Vitamin A oils, of animal, vegetable or marine origin but not including cod liver oil when bottled for sale at retail.
- Natural occurring animal and vegetable waxes, but not including polishes.
- Glass stock, glues and adhesives.
- Starches.
- Yarns and threads, except pure silk, for the knitting and weaving of fabrics.
- Bobbinet, dress and curtain nets and netting.
- Yarns and threads, except pure silk, for the knitting and weaving of fabrics.
- Fibres (natural and synthetic) except pure silk fibres used in the manufacture of yarns and threads and waste products from processing.
- Sewing, embroidery and crocheting yarns, threads and floss, except pure silk.
- Rubberized, plastic and other coated fabrics.
- Elastic yarns, fabrics, and webbing.
- Cotton, wool or hair felts.
- Down and feathers but not including decorative feathers.
- Hides and skins from animals, reptiles or fish, of a type ordinarily processed for use as a leather.
- Leathers and synthetic leathers of all kinds.
- Sheepskin shearings, tanned, but not further processed than combed or sheared and coloured on the flesh side.

PULP, PAPER AND PAPER PRODUCTS

- Pulpwood.
- Waste paper.
- Wood pulp, except (a) dissolving grades, (b) "alpha" grades of bleached sulphate, (c) "Duracel".
- (d) groundwood and unbleached sulphate grades sold for the manufacture of newspaper or hanging paper.
- Newspaper paper except when sold by manufacturers thereof.
- Certain paper products of book, writing, light weight and specialty paper mills, such as bond and stationery paper, duplicating paper, book and writing paper, bookbinding, uncoated blotting paper, cover paper and most papers for converting purposes.

- Papers used for converting or printing purposes made wholly or partly of bleached or unbleached Kraft pulp and Kraft waste.
- Paper board used in the manufacture of solid fibre or corrugated shipping cases.
- Board grades of paper, board, except for wrapping newspaper paper or making newspaper cores.

CONTAINERS AND PACKAGING MATERIALS

- Containers, packaging and wrapping devices of a type used for the sale or shipment of products, when made in whole or in part from wood, metal, a textile fabric or solid or corrugated fibre board, and partitions and interior parts used in conjunction therewith.
- Multilaminar sacks.
- Corrugated or solid fibre board sheets or rolls used for wrapping or packaging.
- Cotton cordage.

SERVICES

- Transportation of goods and services associated therewith.
- Warehousing; dry storage of general merchandise and household goods other than wearing apparel; cold storage, including rental of lockers and ancillary services such as processing charges in cold storage plants.
- Household laundering services.
- Supplying of meals or refreshments for consumption on the seller's premises, the supplying of beverages (except alcoholic beverages) by surveyors of meals or refreshments; the supplying of meals with sleeping accommodation for a combined charge, but not including the supplying of meals, refreshments or sleeping accommodation by an employer to his employees, directly or through a servant or agent.
- The service of printing, the packing or packaging or any other manufacturing process in respect of any goods subject to maximum prices, when performed on a custom or commission basis.

USED GOODS

- Scrap goods, except scrap rubber and wiping rags.
- Household mechanical refrigerators, stoves, ranges and other cooking or heating appliances, electric washing machines, domestic sewing machines.
- Bicycles.
- Motor vehicles as follows:—passenger motor vehicles designed to carry less than ten persons; trucks of all kinds; trailers used with trucks.

Any material shown above processed for incorporation into, or any fabricated component part of any of the above goods is subject to maximum prices. Also any set which contains an article referred to above is subject to maximum prices even though the remainder of the set consists of articles not referred to.

The foregoing is only a convenient summary of Board Order No. 684. It does not give the full legal text. For full details of the law reference should be made to the Order.

WORLD HAPPENINGS

BRIEFLY TOLD

No cricket or other games is to be allowed on Sundays in parks at Newport, Wales.

The town council of Stranraer, Scotland, plans to buy 100 scrapped flying boats and use the aluminum for toys.

The London Daily Express said Winston Churchill has virtually finished his memoirs covering the last 10 years.

Leith, Scotland, which used to export 2,500,000 tons of coal a year, is going to import coal from Newcastle, England.

The Oregon Journal, Portland, said it plans to operate a helicopter from the roof of its new building in news and picture coverage.

Harold J. Laski, former chairman of the British Labor party, said in Brussels that "Russia wants peace and we must try to reach that peace with her."

Tailors in London are being asked to co-operate in efforts to stamp out dishonest dealings in cloth which have assumed such proportions that the trade is greatly perturbed.

Canada's shipbuilding industry, thriving as never before in peacetime, started off 1947 with a backlog of orders totalling around \$110,000,000, a survey showed.

RECIPES

EGGLESS CHOCOLATE CAKE

2 squares unsweetened chocolate
1 cup milk
1 1/2 cups sifted Swans Down cake flour
1/2 teaspoon soda
1/2 teaspoon salt
1 cup sugar
1/2 cup butter or other shortening
1 teaspoon vanilla
Combine chocolate and milk in top of double boiler and cook, stirring occasionally. Boil water 5 minutes, stirring constantly. Add soda, salt, and sugar, and stir together three times. Cream shortening; add flour mixture, vanilla, and chocolate mixture, and stir until all flour is dampened. Then beat vigorously 1 minute. Bake in greased and lightly floured pan, 8x8x2 inches, in moderate oven (350 deg. F.) 50 minutes, or until done. Spread with Quick Chocolate Frosting.

Quick Chocolate Frosting

2 squares unsweetened chocolate
1 can (14 or 15 ounces) sweetened condensed milk
1 tablespoon water
Dash of salt
1/2 teaspoon vanilla
Melt chocolate in top of double boiler. Add condensed milk gradually, mixing well; then add water and salt and blend. Cook 5 minutes over rapidly boiling water, stirring constantly. Remove from fire. Add vanilla. Cool. Makes enough frosting to cover top of two 8-inch layers or 8-inch layers (generously), or top and sides of 8x8x2-inch cake or 9x5x3-inch loaf cake. Or enough to cover tops of 2 dozen medium cup cakes.
Note: Three squares Baker's Unsweetened Chocolate may be used for darker, richer flavored frosting. Increase water to 2 tablespoons and cook only 3 minutes.

ARTISTS CAN NEVER DRAW SNOWFLAKES

The Victoria Times says: More fragile than the filigreed ice traceries which form on windows in the heavy frost, the snowflakes can hold their purity but briefly. They are a quick-changing life, individual as they drift from the clouds, falling softly in a silence that becomes almost tangible, to lose identity in the temporary white blanket they spread upon the land. Yet, in their short transit, each is a model of nature's artistry, a symbol of supreme harmony of line that defies imitation by man's most skillful hands.

FIND ROMAN COINS

STOCKHOLM. — Fifty-six Roman gold coins, dating from 400 to 475 A.D., were found recently in a field in Oland, second largest Swedish island in the Baltic. Representing a current gold value of about \$355, the coins constitute one of the biggest finds ever made in Sweden.

ITCH CHECKED

or Money Back

For quick relief from itching caused by eczema, athlete's foot, scabies, pimples and other itching skin conditions. Itch-Check, medicated liquid, cream, ointment, powder, and bath foam. Itch-Check is the only medicine that gives you quick relief and money back. Itch-Check is the only medicine that gives you quick relief and money back. Itch-Check is the only medicine that gives you quick relief and money back.

LESS AMPUTATIONS IN SECOND GREAT WAR

Report Shows 2,000 Cases Compared With 3,500 Of First Great Conflict

Statistics compiled by the Department of Veterans Affairs offer an interesting comparison of the "living" amputation cases in the Canadian armed forces during the First and Second Great Wars.

Giving round numbers for comparative purposes, a report available shows there were 2,000 amputation cases resulting from the recent conflict while 3,500 soldiers lost limbs in the First Great War.

In the previous hostilities, Canadian troops were engaged with the enemy from Langemark in the spring of 1915 until Mons was re-entered in November, 1918. Canadian land forces were fighting in North West Europe for approximately 11 months from the "D Day" landing on the Normandy coast, during which period there were 1,200 amputation cases. Many of those wounds were due to anti-personnel land mines.

Ratio figures have also been developed to show relative losses of limbs and arms in both wars. In the first war the loss of a leg was two and a half times more frequent than the severing of an arm. In the second war, leg amputations were three and a half times greater than arm losses.

This comparison has been taken to mean that relatively more Canadian soldiers stepped on something during the fighting of the Second Great War.

The statistical review follows the recent announcement that 1,350 veteran amputees of the last war had been classed as available for employment or training. Of this total 248 cases were still in hospital at the end of October.

REAL CO-OPERATION

A sample of real municipal co-operation is reported from Morrisville, Wis., where, to make room for a new washing machine manufacturer the mayor leased the City Hall, moved out his own office, the council, fire department and the library.

FLIES FROM LONDON, GIRL, 15, TO MARRY—Fifteen-year-old Mary Butwell of Reading, Eng., who flew to the U.S. from London to marry former U.S. Sgt. Paul Sinclair, 22, of Youngstown, Ohio, telephones on arrival at LaGuardia field. She met her fiancé at a dance in England when she was 13 and has her mother's approval for her marriage. The couple will live with Paul's parents until "she becomes accustomed to U.S. ways."

The mechanism of Big Ben, giant London clock, includes a 13 1/2-foot pendulum and numerals two feet high.

COW WINS OVER HORSE IN FIGHT

EAST HAMPTON, Conn.—Farmer Harley Flood told how a horse and a cow battled to the death all by themselves in his barn.

Flood said both animals were tethered when he closed the barn. When he opened it, he said, both were loose and the horse was breathing with difficulty.

Examination showed a puncture wound in the horse's shoulder and there was blood on the cow's horn. It was apparent, he said, that the animal started to fight. It was necessary to destroy the horse, but the cow seemed unharmed.

MORE OATS ACREAGE

In view of probable feed grain requirements, the Dominion-Provincial Agricultural Conference decided to recommend that the oat acreage for 1947 should be increased to the 1946 recommended level of 14,310,000 acres. Generally speaking, oat production is carried on for the benefit of the domestic market with only a small percentage finding its way into export channels. Prices for Western oats during the present crop year are subject to a floor price of 45 cents and a ceiling of 51 1/2 cents. In addition, all Western oats marketed are eligible for an advance equalization payment of 10 cents per bushel.

OUTDOOR PLAY BEST

Wise people prefer to play and enjoy themselves outdoors rather than in confined rooms. Health authorities approve recreation and amusement, as necessary relief from work and worry. They particularly endorse outdoor play, when possible.

OUR COMPLETE
SHORT STORY

"BACK FIRE"

By JOHN DOROGI

Copyright Wheeler Newspaper Syndicate

THE minute the door swung open everyone in the office knew that the Duncan family had gotten themselves a boy. One arm cradled a box of cigars and under the other rested five pounds of candy, as Joe with tired eyes but a beaming face proudly announced, "You should see his legs already. Who said there'd be only one All-American in the Duncan family?"

On the two previous occasions Joe's wife had presented him with young Duncans. Each time it had been a girl. And very cute young ladies they were too—aged two and four now—and much loved, but neither could hope to play halfback for Eastern State as did had.

"Here you are, boys," Joe continued, after shaking hands all around, "one to a customer. Better use a toothpick on the last half inch of these 'cause they cost me half a rock apiece. And for the girls—five pounds of the best sweet stuff I could find. Hop to it, and by the way, Ben, 'this to his secretary,' save me a couple of those cigars for Mr. Kramer. He and I have some things to talk over when he gets back this afternoon. And, oh say! where's Tony?"

His eyes held a devilish gleam as from his vest pocket he pulled out another cigar, seemingly identical to those in the box only everyone knew it wasn't exactly identical. They all recognized the symptoms of Joe's most obvious failing. Though quite popular with the office force, he

could have commanded greater respect and popularity had he been able to lay off his practical jokes. His big infectious grin and general air of never having quite grown up naturally drew people to him, but even his best friends knew they weren't immune to an occasional hotfoot or a slap on whatever part of the anatomy smurgh had made the most tender.

Tony wasn't hard to find; for having heard the news he was hurrying toward Joe with outstretched hand. "Con-grah-ulashus, Meestair Joe," his face beamed with pleasure. "I'ma vera happy to hear you getta whatta you wanta." Tony was genuinely glad for Joe and he showed it.

That was why the crowd melted away from around the two of them. They all liked the good natured little Italian janitor, who never seemed too busy to empty a wastebasket or perform some menial task that no one else had time to do. A certain amount of sympathy too was mingled with their liking for Tony who had not always been a janitor. In the old country he had been a gardener; here he had developed quite a landscaping business until arthritis and dampness of the earth during the spring and fall had forced him to seek employment indoors.

Tony took the proffered cigar and immediately ruined the situation for Joe by remarking, "Thanka you, Meestair Joe, I'ma hope you don't min' if I'ma smoke heem affair supple of tonight. I'ma always say a good cigar always taste best affair a spaghetti and a gooda red wine." Joe was obviously disappointed but knew that insistence on immediate action with the cigar would make a bad situation worse so with a shrug of his shoulders and a muffled "Okay, Tony," he turned and walked away.

Joe mooned around the office for about an hour before admitting that the all-night vigil and nervous tension had worn him down. He needed sleep badly but before he left he instructed Bee to make an appointment with Kramer for the following morning. It would be better that way. He'd be fresh and sharp in the morning and would be able to give the old boy a real argument. If one was necessary, and knowing Kramer he knew there would be an argument.

Joe's thoughts were on the morrow as he wearily drove home. Kramer had restated his demands for a salary increase for almost a year. Three times he'd talked to him and three times the results were negative. And Joe was not a quitter. He felt he'd learned more about the old man each time and thought he could make him give in tomorrow. He knew a lot depended on the mood he was in and the setting in that respect would be almost perfect. On the way out of the office Bee had told him that Kramer had just returned from a vacation in Florida with a first place trophy he'd won in a golf tournament. Golf! And that he was, Kramer couldn't help but be in a mellow and expansive state of mind for several days at least.

Mood wasn't all of it though and Joe knew he'd have to give out with good hard facts. He wondered if the advent of his third-born would prove to be lever enough to dislodge Kramer from his previous tenacious position. Hospital and doctor expenses, normal rise in living because of the new baby, insurance and some sort of trust fund to insure a college education for the boy would all be included in his argument when he gazed across the highly polished desk into the old man's shrewd and calculating eyes. Joe's brain buzzed from both weariness and effort as he tried to fit the pieces into a logical pattern. He was almost certain that he could swing the deal but his knowledge of Kramer's attitude in the past continued to worry him. His ace in the hole was Kramer's happy frame of mind. Experience had proved that in a black mood Kramer was impragable. Joe was glad there were such things as business men's golf tournaments.

Joe dressed carefully that morning, his mind busily rehearsing his speech. He shined the backs of his shoes as

On the Road

There is a large army of outdoor men who have learned to depend on Dr. Chase's Kidney-Liver Pills. Riding on trains or trucks causes a jarring which is hard on the kidneys as is the exposure to all kinds of wind and weather.

This medicine goes to stimulate the action of the kidneys and relieve the backaches which so often result.

For over half a century they have been popular with railway men, truckers and farmers.

Dr. Chase's
Kidney-Liver Pills

well as the fronts, put on a freshly cleaned gray suit and tied a Windsor knot into a new gray green tie; more green than gray for somewhere he'd read that green was restful and relaxing to the eye. That's the way he wanted Kramer, calm and relaxed.

In the hall outside the office he almost ran over Tony, broom in one hand, dust pan in the other. The memory of yesterday afternoon returned as he stopped and said with a slightly sheepish grin, "Good morning, Tony. How was the cigar?"

It was Tony's turn to look sheepish and as he squirmed and shifted from one foot to the other, Joe felt a slight pang of remorse for his seeming embarrassment, although he couldn't deny he somehow enjoyed it. Tony spoke, "Well, I'ma tella you, Joe. I'ma no came tell if sheena good cigger or not." Joe's grin grew wider. He should have pushed the load in farther; let Tony get a little enjoyment of the cigar at least.

"You see," Tony continued, "sheena like dis. Lasta night da bigga boss heesa calla me inna ofuse and aska me to do some landscape work for heem. You know—bat me inna couple bush. Heesa seen my seegar and I'ma tella heem you have new fambino. Heesa say he no gotta no seegar so I'ma giva heem mine. I'ma hope you don't min'."

THOUSANDS READY TO
SETTLE IN CANADA

LONDON.—The Evening Standard said that if the Canadian government reopened its immigration offices in Liverpool, Glasgow and Belfast there will be a flood of applications.

The newspaper added that in Liverpool alone shipping companies have a waiting list of 100,000 waiting to go to Canada.

The story, which was featured prominently on the front page, said an average of 100 persons a day made inquiries about Canadian immigration in London and 5,000 were awaiting shipping in Ulster.

Saskatchewan Birds
Facing Starvation

WEYBURN, Sask.—Game birds in the south-central Saskatchewan district are facing starvation due to a heavy crust atop deep snows, reports reaching here said. Birds are unable to dig through to get to their food.

One district farmer said he was able to pick up a starving pheasant and others reported that the usually wary birds including prairie chickens and Hungarian partridge were coming straight into farmers' yards looking for food.

Herb Cusack, game warden, said the Department of Natural Resources has authorized purchase of grain to feed the birds.

Ventriiloquism is thought to have been practiced by the Jews during their captivity in Egypt, when a mystic voice was heard during the worship of Osiris.

QualityMiraculous Cure Of
Incurable Disease

VERONA, Italy.—Villagers of Verona's tiny suburb of San Pietro in Legnaro reported the miraculous cure of 18-year-old Anna Modenesa who had suffered from a guttural and neck tumor which was considered incurable.

The young woman's recovery was said to have followed her new year's dream in which she said she saw an apparition of St. Teresa.

The Saint appeared in her dream, the girl said, carrying a baby completely dressed in green and promised to cure the girl if her father "would swear no longer."

When she awakened the girl called her family to her bedside and neighbors said the cure began almost immediately.

Today she was reported completely cured, and physicians said the incident was "outside the bounds of science."

FOR LEISURE HOURS There is nothing like an absorbing interest to pass hours of leisure, so healthful authorities suggest hobbies for filling in the long winter evenings. Idleness, say national health men at Ottawa, breeds boredom, an unhappy and unhealthy state.

In Africa, Arab and Negro "sportsmen" once shot down, netted, decapitated, speared, bought or kidnapped Negroes for the slave trade.

How to Combat
RHEUMATIC PAIN

Rheumatic pain may often be caused by excess uric acid, a blood impurity that should be extracted by the kidneys. If kidneys fail, and excess uric acid remains, it may cause severe discomfort and pain. Treat rheumatic pain by keeping your kidneys in good condition. Get and use Dodo's Kidney Pills. "Magic" Meat Rolls

2 lbs. soft butter
1 cup chopped leftover meat
2 lbs. chopped onions
2 cups flour
1/2 cup salt
1/2 cup Magic Baking Powder
1/2 cup milk
1/2 cup shortening
1/2 cup milk, or salt milk and water.
Mix meat, onion, butter. Sift together dry ingredients, mix in shortening and liquid to make soft dough. Turn on floured board; knead lightly. Roll 1/2 inch thick, spread with meat mixture. Roll like jelly roll, cut in slices. Bake in baking sheet in hot oven (475°F.) for about 14 minutes. Serve with tomato sauce.

... "And Then There Were None"

Harold was just an old sheep-counter. Every night, before he got to sleep, he counted thousands of sheep...

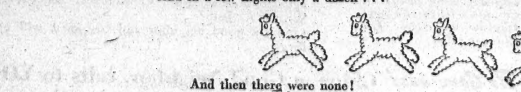

Then one day an Experienced Friend suggested maybe it was the caffeine in the Tea and Coffee he drank that kept the sheep jumping over the fence...

So Harold STOPPED tea and coffee, and changed to POSTUM...

And right away he only got a few hundred sheep over the fence before sleep overcame him...

And in a few nights only a dozen...

And then there were none!

Many people can safely drink tea and coffee. But others are upset by the caffeine these beverages contain. If you find yourself sleepless, nervous, irritable—try changing to Postum. You'll like its rich, heart-warming flavor. Not like tea, not like coffee, just a grand flavor all its own.

Easy to fix—make Postum right in the cup just by adding boiling water or hot milk. Costs less than 1¢ a serving.

Postum

Local and General Items

Regard each day as a new opportunity for service.

Mrs. Fred Donkin is spending a short vacation at the coast.

Be not careless in deeds, nor confused in words, nor rambling in thought.

Mr. Hales sr., is reported to be progressing favorably after an attack of pneumonia.

Mr. Mark Sartoris, of Kelowna, B.C. and formerly of Blairmore is confined to his home with the flu.

Born at Perry's maternity home to Mr. and Mrs. Fred Lencucha on Monday, January 27th, a daughter.

Born to Mr. and Mrs. S. Komperda (nee Nora Beltrame) of Heister, Alberta, at Perry's maternity home on Sunday, January 26th, a daughter.

Among those to receive certificates of Canadian Citizenship naturalization listed in the Canada Gazette are Victor Reval, Bellevue, and Bertalan Virnvancki, Frank.

Can't end up that popular song any more with "a shave and a haircut six bits." Since Monday when local barbers raised prices they now cost a buck, via haircut 65c. shave 35c.

Owing to having to go to press earlier than usual this week, so as to get copies of the town and school district synopsis of financial statements in the hands of ratepayers in ample time for the annual meeting tonight, news items that generally arrive on Friday are regrettably held over.

CARD OF THANKS

I wish to thank the management of the Blairmore Intermediate club, the players and all those who helped in any way to make the Benefit Hockey Game such a success.

LOUIS "MUTT" ENNIS.

When we can't make light of our troubles, we can try to keep them dark.

If a man doesn't care to be his own boss, he might as well marry and be done with it.

HOW THEY WROTE ADS IN 1796

Wanted, for sober family, a man of light weight, who fears the Lord, and can drive a pair of horses. He must occasionally wait at table, join in household prayer, look after horses and read a chapter in the Bible. He must, God willing, rise at 7 in the morning, and obey his master and mistress in all lawful commands; if he can dress hair, sing psalms and play at cribbage, the more agreeable.

N.B.—He must not be familiar with the maid servants, lest the flesh should rebel against the spirit and he should be induced to walk in the thorny paths of the wicked.

Wages 15 guineas a year.

THE GOVERNMENT LIQUOR CONTROL ACT OF ALBERTA APPLICATION FOR BEER LICENSE

PUBLIC NOTICE is hereby given that the undersigned intends to apply to the Alberta Liquor Control Board for a license to sell Beer by the glass or open bottle, for consumption on the licensed portion of the premises, and also to sell Beer by the unopened bottle for consumption elsewhere than upon the licensed premises, in conformity with the provisions of the Government Liquor Control Act of Alberta and the regulations made thereunder, with respect to the following premises:

Beer saleroom situated in the north east corner of the ground floor of the Cosmopolitan Hotel, located on Lots one, two and nineteen (1, 2 and 19) in Block four (4) plan Blairmore 3319-1 in the Town of Blairmore, as shown on plans filed with the Alberta Liquor Control Board.

Dated at Blairmore, Alberta, this 18th day of January, 1947.

Cosmopolitan Hotel,
Blairmore, Alberta,
JAMES ALPHONSUS MCBRIDE,
Applicant.

Any person desirous of protesting against the issuance of a Beer License to the applicant should notify the Alberta Liquor Control Board, Edmonton in writing, within thirty days of the date shown at the foot of this advertisement.
